

# Memorandum

To: Technical Panel  
From: Josh Duru  
Date: June 20, 2017  
Re: Demand Response Auction Update

Attached for Technical Panel's information and for discussion is a presentation on the Notification and Activation of Demand Response Resources.

This presentation is intended to provide members with an overview of the work being undertaken through the Demand Response Working Group to improve the utilization of Demand Response.

Stakeholder consultations on the Demand Response Auction have been taking place since 2014 and have continued through Demand Response Working Group in 2017.

The IESO expects to bring market rule amendments to the Technical Panel related these proposed changes to the Demand Response Auction at its August 15, 2017 meeting.

Yours truly,  
Josh Duru
